

# FAMILYNK

Keeping Families in Sync

Names: Samantha Romero & Eizel Martinez

Subject: Computer Science 2

Teacher: Dachel P. Raagas

Date: November 26, 2025

## Problem Statement:

Many Filipino households struggle to manage schedules, chores, bills, and daily responsibilities. This leads to missed payments, forgotten tasks, food waste, and overall disorganization, especially with family members balancing school, work, and personal commitments.

## How FamiLynk Solves This:

FamiLynk serves as a centralized, user-friendly app that synchronizes family schedules, tracks bills, manages groceries and pantry items, assigns chores, and sends timely reminders—helping families stay coordinated, efficient, and connected.

## **What is FamiLynk?**

FamiLynk is a family coordination app designed to help households stay organized through shared tools and real-time updates.

## **What It Does?**

FamiLynk offers a shared calendar, grocery list, bill reminders, pantry tracking, and chore assignments—all inside one easy-to-use platform.

## **Why We Chose This App?**

We noticed that many Filipino families struggle with time management and household tasks because everyone is busy. We wanted to create a simple solution that can reduce stress and improve coordination at home.

# Project Objectives

- ✓ Help families complete at least 80% of tasks on time using a shared calendar.
- ✓ Reduce food waste and missed repairs by at least 80% through pantry tracking and reminders.
- ✓ Combine useful features from existing apps but adjust them for Filipino families.

# Target Users

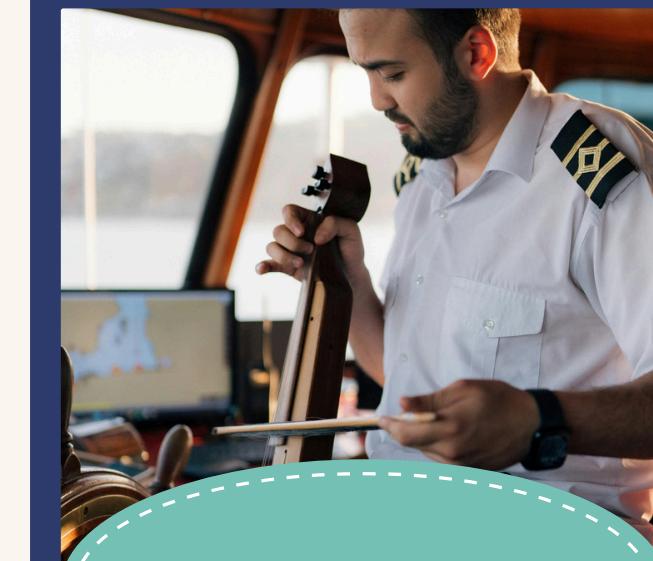

Filipino Households

Working Parents

Students

OFW Parents

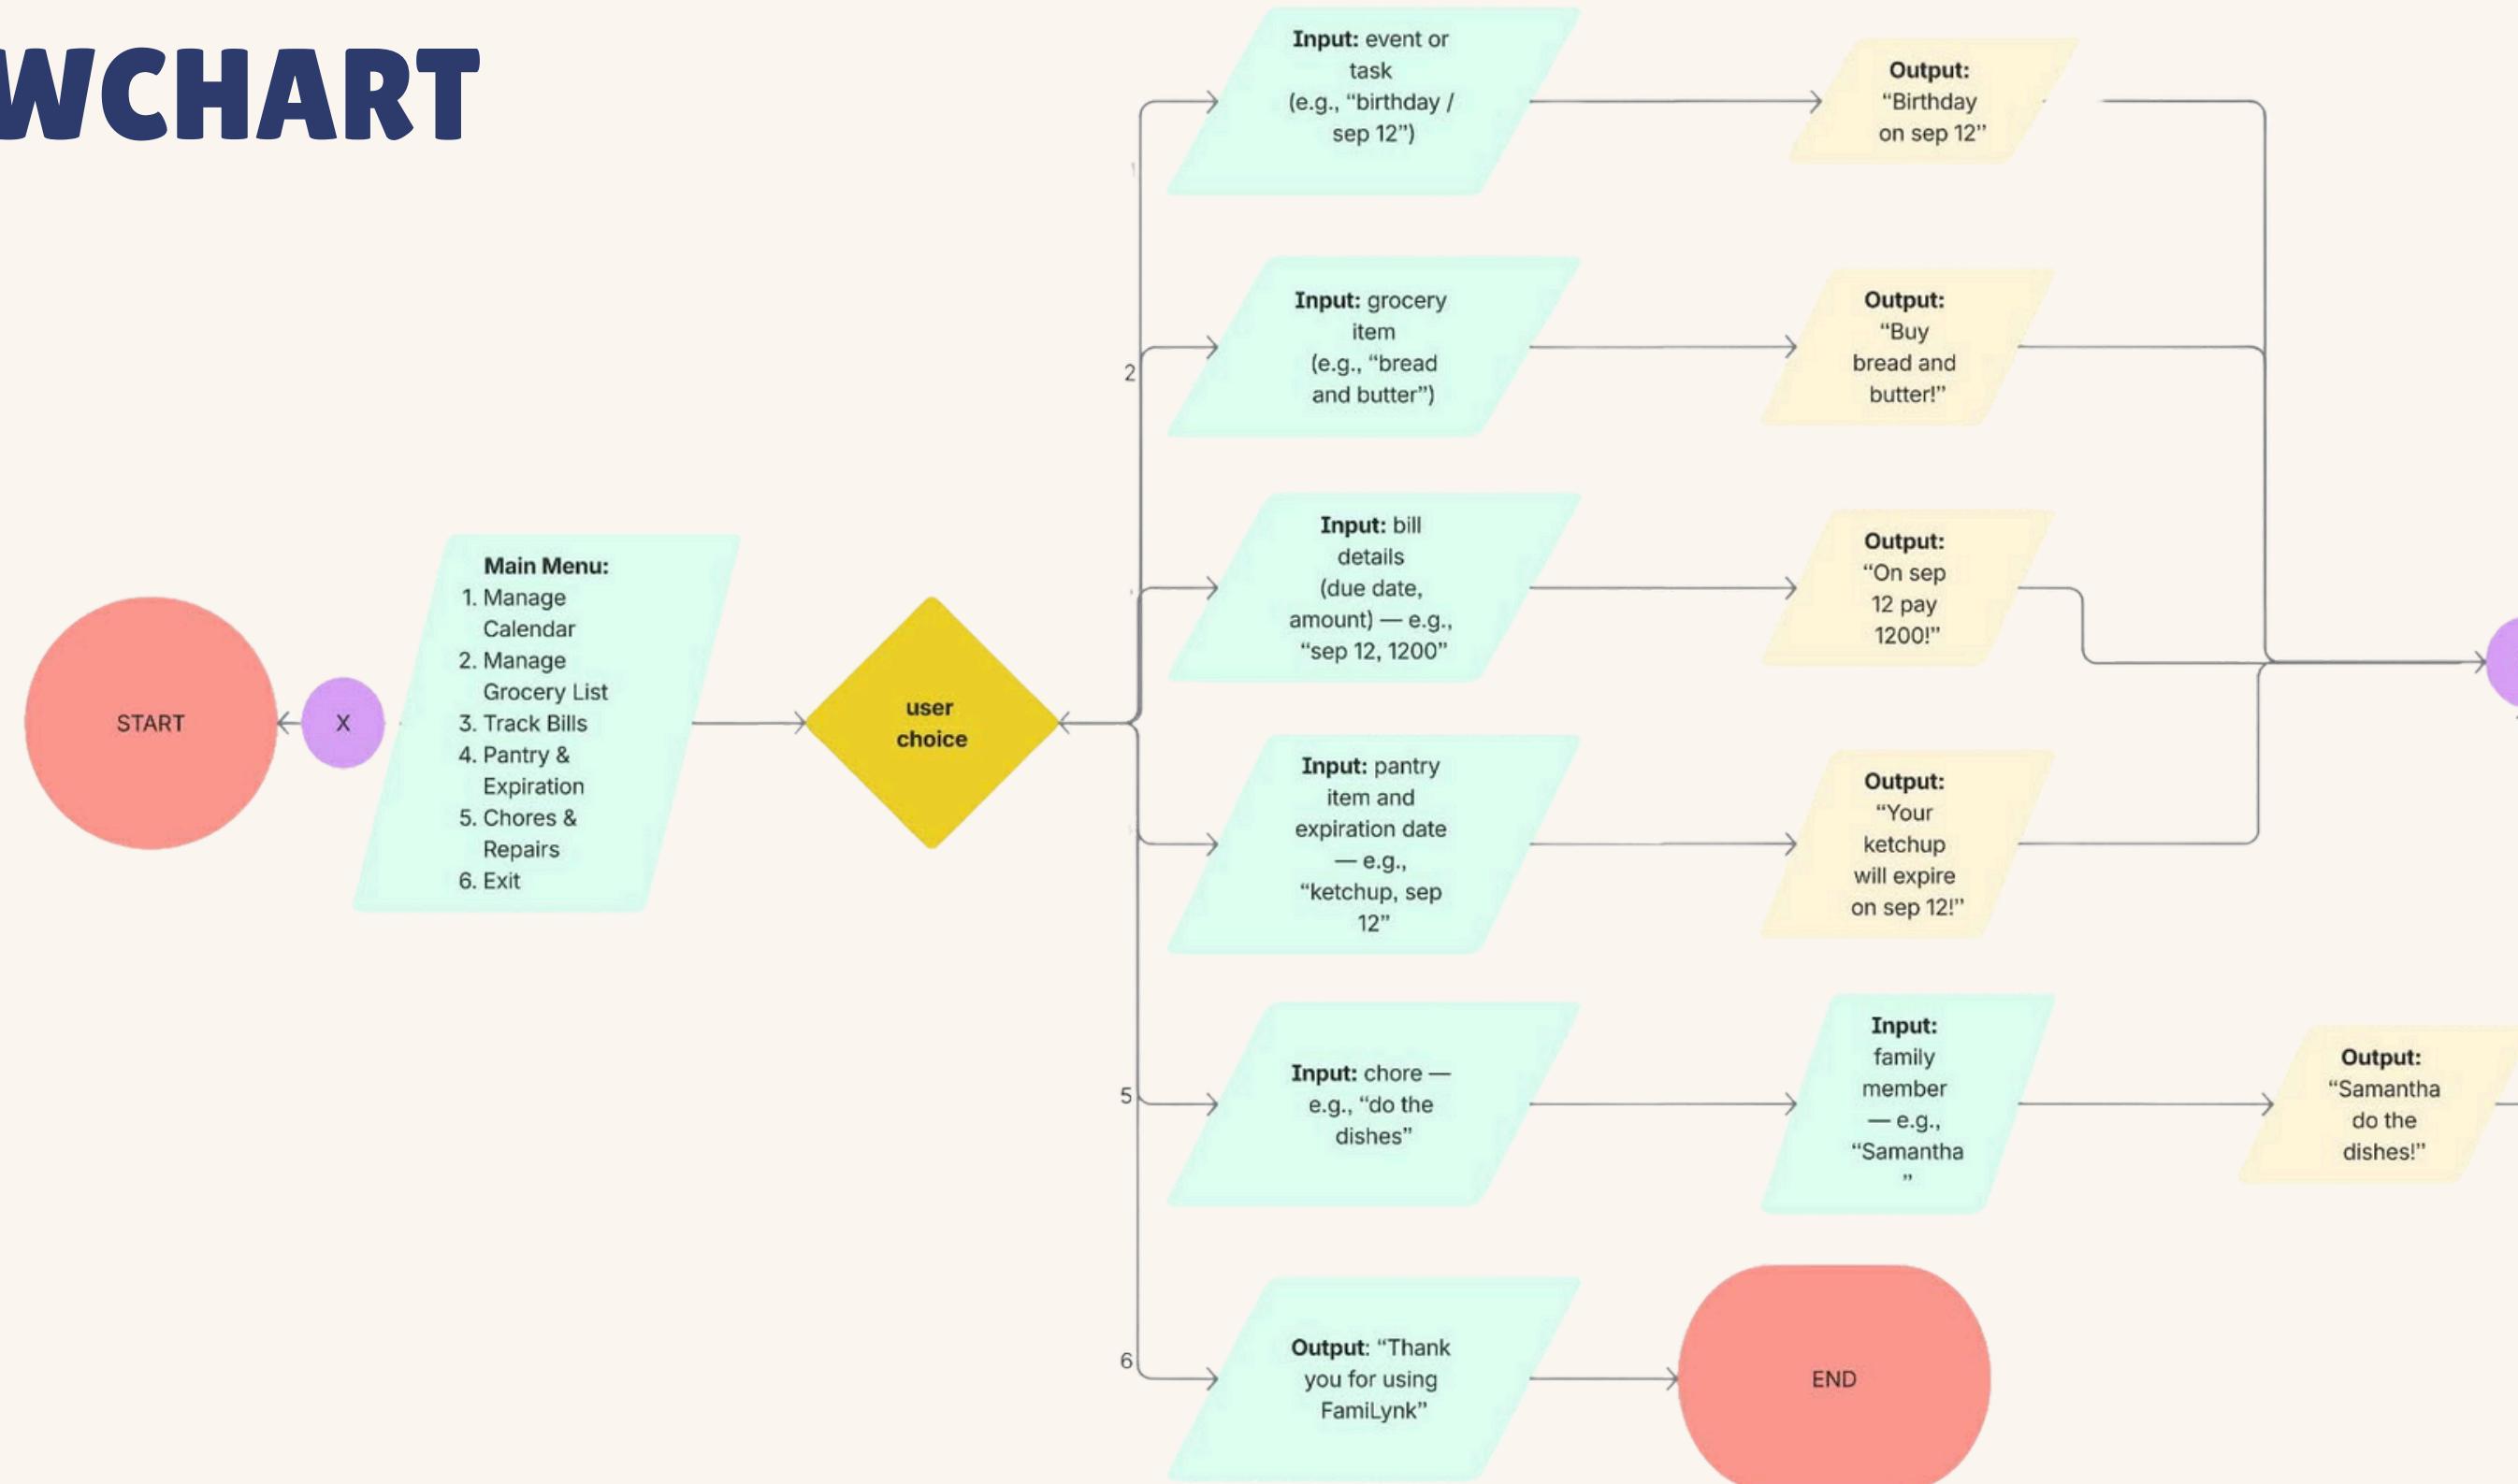

## Key Features

1. Shared Family Calendar - Sync events, deadlines, and appointments in real time.
2. Synced Grocery List - Update shopping lists collaboratively.
3. Bill Tracker with Reminders - Prevent late or missed payments.
4. Pantry Tracking & Expiration Monitoring - Reduce food waste with expiry alerts.
5. Chore & Repair Reminders - Assign, track, and complete household tasks.

# FLOWCHART

## LIMITATIONS AND FUTURE IMPROVEMENTS

- Limited customization for unique household setups
- Dependent on user consistency in updating data

- Add more reminder options so users can choose sounds or notifications they like.

# THANK YOU
